"COLLABORATING FROM EXPERIENCE"

TURNING A GRAND PROJECT INTO REALITY

Welcome to **DEMONTES**

I am pleased to present the beginning of a new business stage. The birth of **DEMONTES** provides us with new opportunities. A stage that is born from the merger of two companies of great talent and experience: Consultoría Natutecnia S.L.U. Y Europa Agroforestal S.L.U.

It has been years of hard work, of challenging moments, but above all, of very fulfilling memories, which have given us the opportunity to build experience in the field, meet excellent professionals and establish exceptional relationships with customers and suppliers who, without a doubt, have helped us become who we are today.

Since we began our journey together, back in 2000, we have been a team of

people committed to performing our work successfully, as we are aware of the work successfully, as we are aware of the repercussions that our actions might entail for society and the environment, the ultimate beneficiaries of our efforts. And this is how he wants to continue to operate in the new horizon that opens up before us, because we believe in commitment, personal attention and in the professionalism our services provide.

Following our philosophy, at **DEMONTES** we want to “Collaborate from experience”.

We undertake tasks with our best efforts and commitment, paying attention and care in our work, being there, close and available to attend to

and listen to the needs of our clients, suppliers and, of course, the team of people that make up **DEMONTES**.

We want to continue growing with the aim of leading this new project, generating wealth and sustainability in our social economic and environmental surroundings.

I say but not before thanking you for the trust placed in us by all the organizations and people who are part of and work with us, intending to continue to collaborate to make the success of the **DEMONTES** project a reality.

I count on your commitment and enthusiasm. Thank you all.

Miguel Ángel Porrero
President of the Company.

PRESENTATION

“Collaborating from Experience”

In this new stage we are starting, **DEMONTES** brings together the baggage of experience and knowledge of technicians and specialized personnel in its 20 years of existence, making us a company where **professionalism** and **close relationships** with our clients, suppliers, and collaborators forge our identity, and the ability to diversify in services has been key to professional success.

Today, **DEMONTES**, with a full commitment to environmental care and the safety of people and property, is renewed with the philosophy of "**Collaborating from experience**", to be the benchmark in the environmental and emergency sector for the **more than 80 clients we have, including public administrations, companies, and organizations at both national and international levels.**

WE ARE... WHAT MOVE US...

A team of **over 50 professionals** who put their talent at the service of the client.

PROFESSIONALISM in the services we provide. Continuously updating to give our best.

CLOSENESS in dealing with clients, suppliers, and among ourselves. We work as a team.

COMMITMENT to clients, to our work, and to the environment and society.

WE WORK FOR...

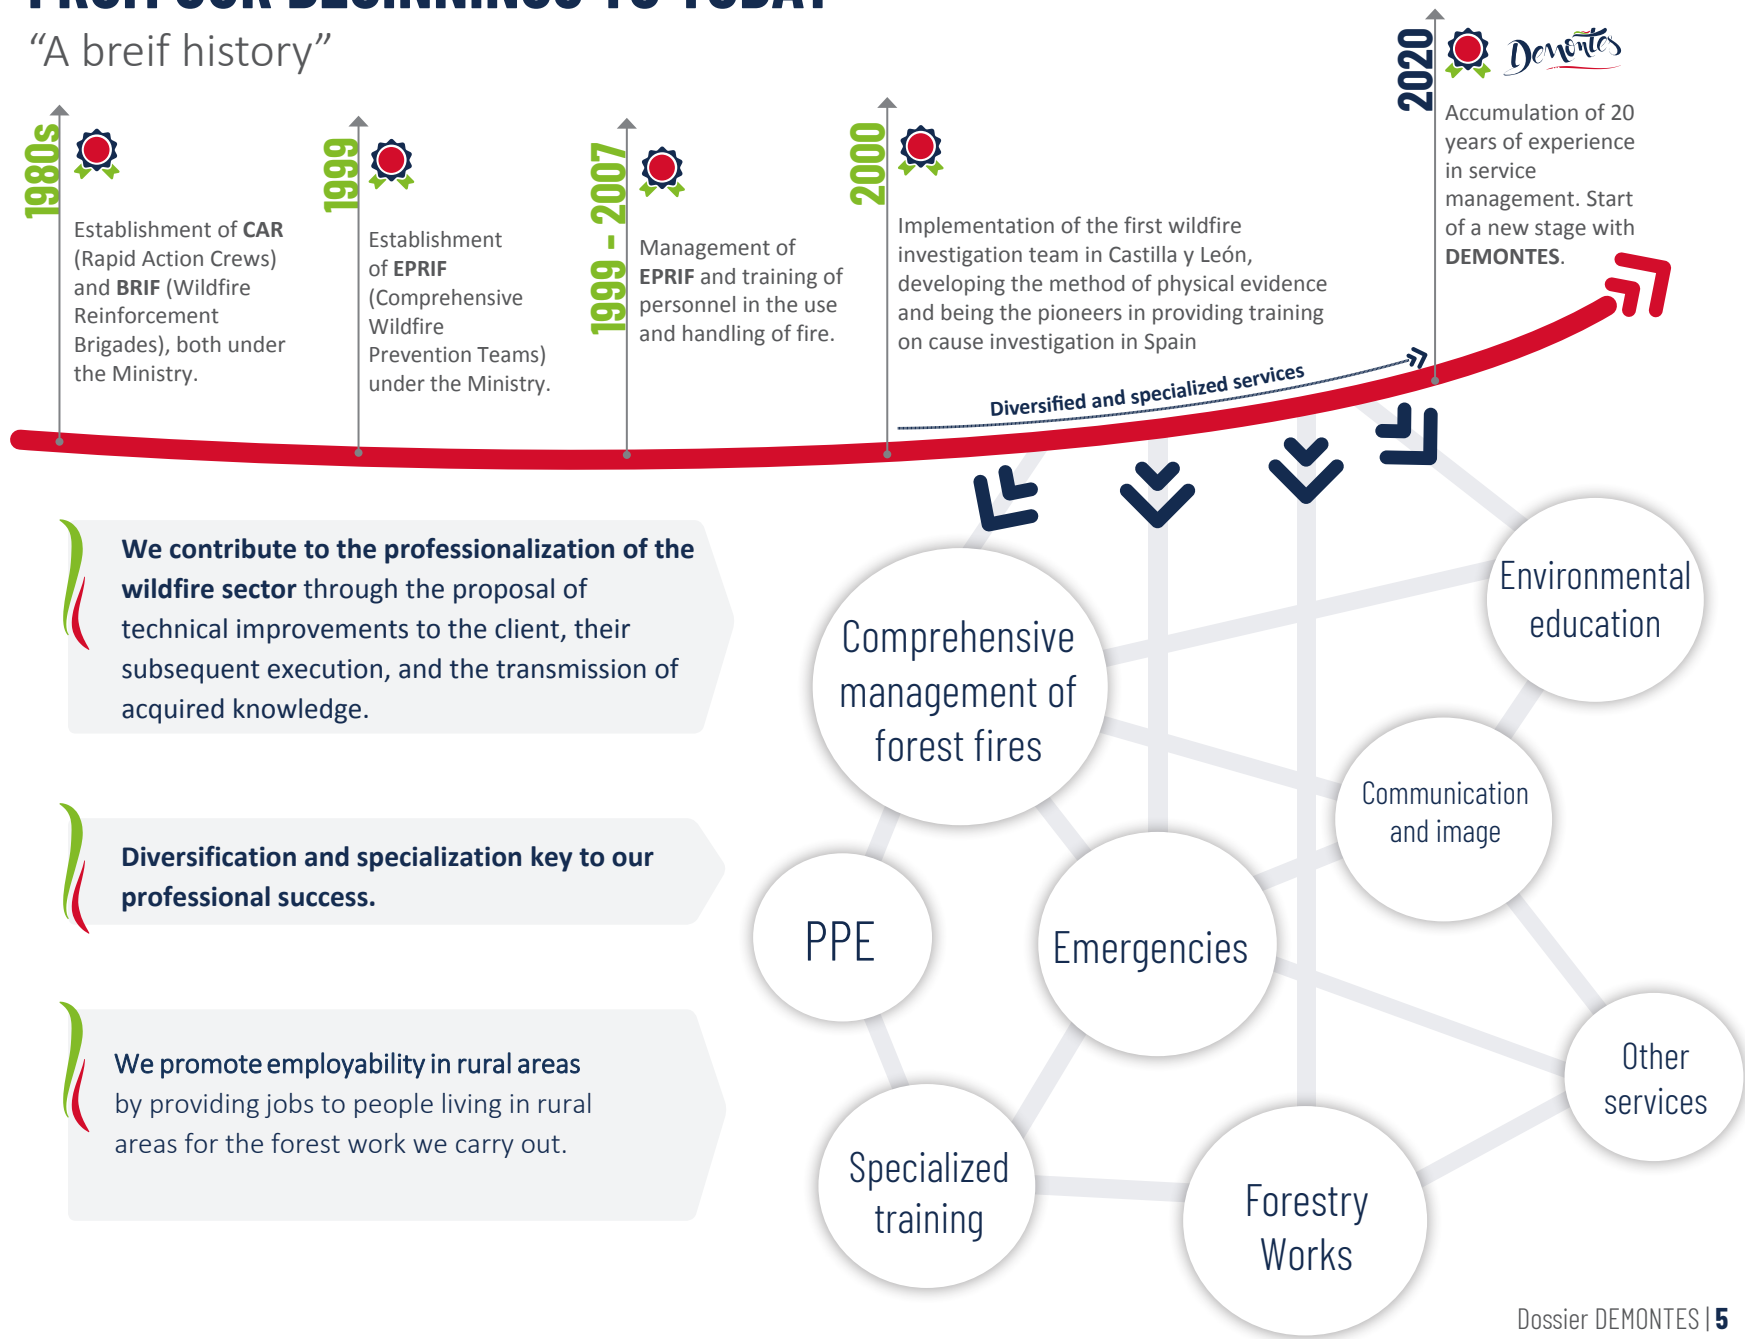

THE PRESERVATION OF THE ENVIRONMENT

THE SAFETY OF PEOPLE

FROM OUR BEGINNINGS TO TODAY

"A breif history"

Comprehensive management of **FOREST FIRES**

OUR SEAL OF IDENTITY

“Professional solutions”

- Forest fire suppression for emergency and civil protection personnel.
- Fire suppression and self-protection.
- Ladders and maneuvers with ladders.
- Felling, shoring, and debris removal.
- Traffic accidents.

Manufacturing and supply of **PERSONAL PROTECTIVE EQUIPMENT**

SAFETY AND COMFORT

“Crucial for firefighting”

At **DEMONTES** we have been dedicated to firefighting for years. We have extensive experience of what it means to face flames in extreme conditions.

We put all the knowledge acquired at the service of manufacturing our Personal Protective Equipment (PPE) to adapt to the needs of the worker.

Our mission is to ensure the safety of the personnel who risk their lives to defend the forests from the flames.

In the design and manufacturing of **Personal Protective Equipment**, we put ourselves in the shoes of the fighters. We want them to carry out their tasks with maximum **safety and comfort**, being the protagonists of the evolution of the equipment, as their experience provides us with guidelines for improvement, always seeking the **optimal balance in the quality-price relationship for the garment**.

Garments certified by AITEX, complying with current regulations for the execution of forest fire extinguishing work.

“Our **experience**
in the service of
product **design**.”

OUR GARNMENTS

FW-10 GREEN COVERALL

FW-30 GREEN PANTS

FW-20 GREEN SHIRT

NECK PROTECTOR V3-005

FW-40 NECK GAITER

Colors

We tailor, on request, the same items displayed (except the neck protector) with other color combinations based on your needs. Available colors:

WHAT WE DO

Other SERVICES

FLEXIBLE Y VERSITILE

The variety of services executed by **DEMONTES** gives us great adaptability to the market, offering customers versatility and solutions to new challenges.

Communication and image

- Design and conceptualization of communication plans for campaigns.
- Design and management of advertising through posters, brochures, or ads in different media outlets.
- Development of educational and informative materials such as brochures, workbooks, games, activities, and interactive resources.
- Merchandising.
- Brand image creation: logo design and corporate elements for companies.

Provision of museum facilities and equipment for interpretation centers and nature classrooms

- Conceptualization of the exhibition or stand.
- Content development.
- Design and creation of panels and interpretive resources.
- Exhibition assembly.
- Transport and assembly of itinerant exhibitions.
- Management of fairs and congresses.

RPAS (Remotely Piloted Aircraft Systems)

DEMONTES is authorized as a Drone Operator by the State Aviation Safety Agency (AESA) to operate in accordance with current legislation in the following services:

- Investigation and development.
- Aerial photography, filming, and surveys (topographic surveys, photogrammetry), including visual spectrum and thermal cameras.
- Aerial observation and surveillance operations, including filming and forest fire surveillance activities.
- Emergency, search, and rescue operations.

We specialize in RPAS (Remote Piloted Aircraft System), more commonly known as drones, in activities where we are already a benchmark, such as emergencies, the forestry sector, or environmental education.

We have qualified and accredited pilots authorized by AESA for the performance of the aforementioned tasks.
